ZAOR MIZA STAND MKII STUDIO MONITOR
CHERRY/BLACK LA COPPIA

ZAOR MIZA Stands were designed with two main criteria in mind: They should be affordable and yet designed to the best standards of technical performance and design.

We chose the same materials as for the other items in the MIZA range, but with two particulars, that make it a very professional and highly useable speaker stand:

- We added a pad of AERSTOP on top of the stand, that helps isolate the speaker from the stand, reducing the propagation of lower frequency content through the speaker to the floor and thus the room.
- They are adjustable in height!

Specifications:

- Height: 857 – 1206 mm (min to max)
- Top: 230 x 214 mm
- Bottom: 322 x 294 mm
- Adjustable in height
- AERstop pad
- up to 25kg
