

LD SYSTEM HSAE1

89,00 € tax included

Reference: LDHSAE1

The LDHSAE1 is a professional headset microphone that is especially suitable for aerobics, sports, and fitness trainers. The bi-directional electret condenser capsule with windscreen offers speech intelligibility and high sound quality. The low weight, flexible microphone arm, and neckband with adjustable neck strap ensure a comfortable, secure fit and complete freedom of movement.

It connects to a wireless transmitter via a mini-XLR connector. The LDHSAE1 headset is extremely sturdy, water-repellent, and of course also stage-ready.

Product number: LDHSAE1

Product type: Headset microphone

Type: electret condenser

Colour: black

Frequency response: 80 - 16.000Hz

Directivity: bi-directional

Sensitivity (quiescent voltage @ 1kHz): 0.4 mV/Pa

Nominal impedance: 1600Ohm(s)

Signal-to-noise ratio: 76dB

Microphone input: Mini-XLR (3-pin)

Accessories (included): Foam windscreen

Weight: 0.2kg

Features: waterproof
