EPIFANI UL-902C TESTATA BASSO STEREO 2x900W - 2U

The Epifani UL 902C is a 2 channel, 1800 watt professional bass amplifier designed to deliver studio quality audio and road worthy performance. Described as "sounding like the channel strip of a high end vintage recording console" and powered by a pair of cutting edge, 900 watt class "D". The award-winning UL amplifiers combine a studio quality preamp with an audiophile grade power amp to deliver power, precision, and transparency that is a bass benchmark the world over. The amazing 1800-watt UL902C is one of the most powerful bass amps ever. Designed for big stages, the UL902C can power multiple stacks of cabinets with its twin 900-watt RMS amplifiers. Imagine, you can drive four 4x10
