## PLANET WAVES PW-GR-01 GUITAR REST

The Planet Waves Guitar Rest turns any flat surface into a guitar stand. Simply lay the Guitar rest over the edge of any level surface and lean your instrument against the "neck pocket" of the guitar rest. The surface friction of the guitar rest will resist movement on practically all surfaces. Perfect for instances where a stand is not available or convenient. The Guitar Rest fits easily in any case or gig bag so you can take it anywhere.

- Turns any flat surface into a guitar stand
- Works great on amps, tables, road cases and studio furniture
- Inert material will not damage guitar finishes
- Instantly allows you to find a safe place to rest your instrument no matter where you are
- Fits easily in a any case or gig bag
