GIBSON PRPG-060 HISTORIC'56 LES PAUL (P-90) PICKGUARD - CREMA

One of more distinguishing features of the iconic Gibson Les Pauls of the late 1950s was the crème-colored pickguard that adorned nearly every instrument that left the Gibson factory. This '56 Les Paul Historic Pickguard is made of ABS plastic and built to the same OEM specifications as the ones in 1956. It offers a traditional vintage look to any Les Paul with P-90 pickups. Includes two screws for installation.
