VISUAL SOUND JEKYLL & HYDE V1 GREY - ULTIMATE OVERDRIVE

This silver-finished model is the first version of the Visual Sound Jekyll & Hyde Ultimate Overdrive pedal. Featuring two different drive circuits, the "Jekyll" overdrive side has knobs for Drive, Tone, and Volume, while the "Hyde" distortion side has knobs for Drive, Tone, EQ, and Volume. There is also a Sharp/Blunt switch to change the color of the distortion. The overdrive circuit is based on the Ibanez TS-808 Tube Screamer, while the distortion circuit is based on the Marshall Guv'nor.
