Fusing reliability and flexibility for today's demanding gigging environment, Pearl has developed Modern Utility: a line of no-nonsense, well-appointed snare drums priced with the active working player in mind.

Vital instruments tailored to make the gig great, Modern Utility snare drums feature a 6-ply/5.4mm all Maple SST shell and our classic CL Bridge Lugs. The 14"x10" Floor Snare Drum is a workhorse of a different color. Its size and mounting legs lend themselves to floor tom tuning and play, but the addition of our smooth SR-017 strainer and snare wires make it playable as a deep-voiced accent snare drum.
