GIBSON CUSTOM SHOP "MURPHY LAB" 1956 LES PAUL ULTRA LIGHT AGED - DOUBLE GOLD

GIBSON CUSTOM SHOP "MURPHY LAB" 1956 LES PAUL ULTRA LIGHT AGED - DOUBLE GOLD

1956 was the only full year in which the Les Paul™ model featured the powerful P-90 pickups and the adjustable ABR-1 bridge setup, a combination that allowed the Les Paul model to intonate, sustain, and thrill like never before. This Gibson Custom Shop '56 Reissue captures the look, feel, and searing sound of an original 1956 Les Paul Goldtop in exhaustive detail. Featuring all solid woods, vintage-accurate gold paint, authentic replica parts, Historic narrow/tall frets, and hot hide glue construction. It also features Aging by the skilled artisans of the Murphy Lab. The Murphy Lab Ultra Light Aged finish treatment, paired with lightly aged hardware, simulates decades of light play wear, giving it the unique character, vibe, and feel of an original example from the Gibson Golden Era.

Instruments built in Murphy Lab department are ultra accurate recreations of iconic Gibson models, that perfectly mimics the broken-in feel of Gibson from the Golden Era.
For 25 years, Tom Murphy has been replicating the vibe and character of vintage guitars. In partnership with the master luthier, Gibson scienfically reverse-engineered the original imperfect and brittle 1950/60s Gibson lacquer which was causing checks under the finish.
Every Murphy Lab aged creation takes a completely separate path through the Custom Shop, receiving the Murphy Lab special lacquer formula and hand-applied Murphy Lab techniques.
Each Murphy Lab artisan has been trained by Tom Murphy to become an aging expert.
