OR30H BLACK

New Orange OR30. 30W, All Valve, Single Channel Head with Footswitchable Volume Boost.

There are so many unique features on the Orange OR30 amp that it's difficult to know where to start. But whether it's the all-UK construction, the footswitchable volume control, or the bright switch — the first on any amp in Orange's history — we're definitely going to have to shout about it, because the OR30 is also one of the loudest amps out there. That's right: don't let the 30W rating mislead you — this critter hits the same sound pressure readings as a 100W amp in the test room, meaning that you're getting both quantity and quality of classic Orange tone in one unbeatable box.

Built in the UK. Three-way Bright Switch. Cross-Line Presence. Footswitchable Volume Boost. Headroom (30W) / Bedroom (2W) Switch. Dimensions: 27x55x24cm. Weight: 18.3Kg.
