DMT TIPOD SCREEN 4:3 - 100" - SCHERMO DI  
PROIEZIONE PORTATILE

The DMT Tripod Screen is a high-quality portable beamer projection screen for front projections. It's suitable for daily use due to its easy and quick installation and heavy duty aluminium and steel parts. Besides, the fabric is flame retardant, mold resistant and the matte white colour won't fade, deform or wrinkle.

The Tripod Screens are equipped with plastic finished parts for an elegant appearance and for minimizing any scratches on the post. Besides, its lightweight folding structure makes it a very portable solution and allows you to easily adjust its screen height.

DMT Tripod Screens are available in 84" and 100" with a 4:3 ratio.

Front projection: 2030 x 1520 mm (WxH)

Suitable for LCD and DLP projectors

Strong durable built (heavy duty aluminium and steel parts)

Flame retardant

Mold resistant
