Antq II for Jazzmaster Jam Brdg

11034-36 The Antiquity II for Jazzmaster vintage single-coil pickup uses calibrated Alnico 5 rod magnets and a period-correct coil wind to give you that classic ’60s instrumental tone. The Antiquity II for Jazzmaster vintage single-coil pickup uses hand-ground Alnico 5 rod magnets, with our special coil wind to deliver bright, ’60s Jazzmaster tone that is glassy and crisp, with just the right balance of bridge position snap. Chords have a sharp, clear quality, and solos really jump out with that bright, ’60s surf tone. Use with the RWRP Antiquity II Jazzmaster neck pickup for hum-canceling performance in the middle position. These pickups are drop-in replacements for any Fender American Standard sized Jazzmaster pickup, and will fit nicely into the existing cover. Hand built in our Custom Shop, the Antiquity II for Jazzmaster vintage single-coils use hand ground Alnico 5 rod magnets, a custom coil wind with heavy formvar mag wire, vintage-correct gray flatwork, cloth push-back lead wire, and are all lacquered and wax potted like the originals.
