Reference: 17800216

GB20C is the gig bag for classical guitars developed by Tobago, created to ensure reliable protection and sophisticated style. With high-quality materials and an elegant design, this bag offers the ideal solution for those seeking safe and refined transport for their classical guitar.

Contemporary Design with Embroidered "Armadillo" Logo

The modern design of the bag is enriched by the embroidered "Armadillo" logo on the front pocket, with velcro opening, providing a distinctive style.

Premium Materials and Protective Padding

Made from durable 600D polyester, the bag features an inner lining in non-woven fabric. The 10mm polyethylene padding, impact-resistant due to its properties of reduced but elastic compression, offers superior protection for your classical guitar.

Handles and Adjustable Shoulder Strap

Equipped with a side handle and a front handle, both with the embroidered Tobago logo, the bag offers a comfortable grip. The adjustable shoulder strap allows versatile transport, suitable for your needs.

Security and Practical Functionality

The 10mm zipper with an orange elastic pull ensures a reliable closure. The front pocket with Velcro is ideal for storing accessories such as tuners and sheet music.

Elegant Protection for Your Music

GB20C is the ideal choice for those looking for a bag that combines high-quality protection and refined style. With Tobago, transporting your classical guitar becomes a statement of elegance.
