SJ5 is a hard case designed for Hollow body guitar, 335 style, providing robust protection for your instrument. Developed by Tobago, this hardcase ensures the highest level of protection in various conditions.

The **SJ5 hard case from the CURVED series** is tailored for Hollow-body slim guitars, offering a perfect fit and optimal protection. Crafted with high-quality materials, it combines style and security, meeting the demands of discerning musicians.

Key Features of SJ5 - Hardcase for hollow body guitar (335 style) by Tobago

- High-quality faux leather exterior
- Soft plush interior lining for superior protection
- Birch plywood construction for a sturdy structure
- Elegant Tobago and Armadillo logos on the side panel
- Zipper closure with lock for extra protection
- Sturdy side handle for convenient and secure transport

Why choose a CURVED hard case?

1. **Curved Top Adaptation:** The design with a curved top surface fits perfectly to instruments with a curved top, ensuring an ideal fit and optimal protection.
2. **Maximum Protection:** Hard cases offer significantly superior protection, being impact-resistant and effectively safeguarding

instruments.

3. **Speed and Efficiency:** During loading and unloading operations, **CURVED hard cases** prove to be faster and more efficient, saving valuable time.
4. **Crush Resistance:** Crush impact resistance provides **greater peace of mind** in complex and stressful loading situations.
5. **Compatibility with Other Instruments:** Place **CURVED hard cases** under other instruments without fear of damage during loading and unloading operations before and after a concert, facilitating space organization during transportation.
6. **Long-term Protection:** Over time, hard cases maintain their **shape and strength**, ensuring constant protection for instruments even after repeated use.

Protect your instrument with style: Tobago's **CURVED hard cases** deliver an excellent blend of style and protection. Whether you're a **guitarist or a bassist**, the **CURVED series** is the ideal choice to keep your instrument safe with a touch of class.
