Set, Little'59\Vintage Stack Tele

11208-33 Give your guitar noiseless Telecaster pickups with a full sounding, medium output humbucker tone in the bridge position with the classic deep honk you love in the neck, without any hum. Previously unattainable rich humbucker lead tones in a standard Telecaster are now yours with our Little ’59 and Vintage Stack noiseless telecaster pickup set. The Little ‘59 for Tele is like putting a well-balanced, full sized P.A.F. into the bridge position of your Tele. This medium output, single coil sized pickup has a nice, even bass and treble response with a slightly scooped midrange that gives it that classic, full bodied humbucker sound. Great for everything from country to rock. The 4-conductor lead wire gives you access to parallel and split wiring options for added versatility. This pickup is a drop-in replacement for a Fender American Standard Telecaster sized pickup route. The Vintage Rhythm Stack is a noiseless Tele neck pickup that delivers classic output and tone. The lows are full and warm and the treble response has that classic spank. Built by hand in Santa Barbara, CA, this pickup set uses ceramic bar and alnico 5 rod magnets, a deep drawn chrome plated cover for the neck, 4-conductor lead wire, and is wax potted for squeal free operation.
