Benedetto A6 Gold Cover, Neck

11601-09-Gc Warm, full sounding Jazz humbucker with lots of top end clarity. Great for any Jazz box. The Benedetto A-6 is a fat, punchy humbucker that produces a fat, warm, yet highly articulate Jazz tone. At almost 12k, the A-6 packs a bigger punch than the P.A.F. model, and the alnico 5 bar magnet gives it a very musical treble response. Hand built in Santa Barbara, CA, the Benedetto P.A.F. uses an alnico 5 bar magnet, 4-conductor lead wire, and is available with either a gold cover or a black nickel cover.
